COMPANY INFORMATION

Advanced Telemetry Systems International, Inc., operating under the registered trade name "ATSI," is a certified Small Business with a distinguished three-decade presence in the Southwestern United States and Hawaii. Since its establishment in March 1991, ATSI has positioned itself as a leading systems integration company specializing in industrial control systems. Our enduring commitment is to uphold a legacy as a solutions provider and a trusted advisor to our esteemed clientele.

ATSI is dedicated to delivering affordable and high-performance solutions, whether facilitating upgrades to existing systems or implementing entirely new systems. Our team of seasoned professionals boasts decades of collective experience in the industrial automation industry, serving as proficient System Integrators across diverse sectors. We pride ourselves on consistently meeting and exceeding the expectations of our clients by providing innovative and reliable solutions tailored to their specific needs.
